

## Dialysis Department

The department functions under the supervision of a qualified Consultant Nephrologist assisted by a team of medical, nursing and paramedical staff.

The department is capable of both **Hemodialysis & Peritoneal Dialysis**, depending on the dialysis modality which is best suited to patient's health.

Strict protocols on prevention of diseases are observed during the process of dialysis.

### Features of the Department

- 8 bed comfortable arrangement
- The department is functional from 08:00am to 10:00 pm, however 24 hours emergency cover
- Appointments are only given on the basis of referral by a Consultant Nephrologist
- Screening is performed for all patients before undergoing dialysis. Screen tests include,
  - HBS ● HCV ● HIV
- Dedicated dialysis machines available for HBS+ and HCV+ patients
- Cardiac monitors are available for monitoring patients suffering from cardiac conditions
- Average duration for haemodialysis is between 3 to 4 hours  
Centrally controlled oxygen supply
- Digital weighing scale installed capable of weighing patients on wheel chairs
- Dialysis machine functions through built-in battery in case of interruption in the power supply
- Bicarbonate solution used for Dialysis
- Regular maintenance of equipment and strict protocols ensures an infection-free and hygienic environment
